## YOUNG HEARTS FAIL

Intense, dynamic music with an impressive and inspiring live show! Projektor are about to release *Young Hearts Fail*, the follow-up to their successful debut record, *Red Wolf Glass*.

Since their inception the band has consistently been recognized as one of Western Canada's most exciting new bands. Projektor was selected as one of the top 5 "Up and Coming Canadian" new artists by *What! Magazine* and chosen as finalists in CBC radio's "Big Break" contest.

Having toured Canada several times, including dates with *Eric's Trip*, *Moneen*, *Radiogram*, and *The Waking Eyes*, Projektor is a regular fixture at such noted events as *Canadian Music Week*, *Western Canadian Music Week*, *New Music West* and *The Halifax Pop Explosion*.

After more than a year in development, the band has completed their new album *Young Hearts Fail* with the assistance of Juno-winner and Grammy nominated producer, *Brandon Friesen*. The music represents a movement away from the epic atmospheric sound of *Red Wolf Glass* to a more immediate and driving rock focus.

**Projektor** is (L-R):

**Jahmeel Russell** vocals/bass. Jahmeel pens the lyrics; his driving and sometimes plaintive vocals are juxtaposed with his solid bass foundation. Former bands include *Kittens* and *Malefaction*.

**Jeremy Gillespie** guitar/keyboards. Jeremy's moody and often haunting guitar lines create a distinctive Projektor sound and are reflective of his former work with *Nemo*.

**Johnny Stewart** guitar/vocals. Projektor's newest addition! Johnny is a well-known and respected musician most recently with *Mico* out of *Calgary*.

**Darren Achorn** drums. Darren provides a very strong backbone, his performing style developed with *Meatrack* and *Walter Paisley*.
