RADIOGRAM

SEVEN SKETCHES (DEMO)

Radiogram is the widely acclaimed ambient folk, alt. pop, chamber country band headed up by Vancouver singer songwriter Ken Beattie. Radiogram's sophomore album *All The Way Home*, has, like it's predecessor, *Unbetween* garnered an international plethora of rave reviews, features, and cover stories. Both albums have appeared on over 20 year end top ten lists the world over.

Radiogram played over 100 shows in over 40 different cities across Canada and the U.K. in 2002 and 2003 with acts ranging from **The Weakerthans**, **The Jayhawks**, **Hot Hot Heat**, **The Be Good Tanyas** to **Corb Lund**. The band has performed live on **MTV** and the band's legendary **New Music West** performance has been aired on **MuchMusic** numerous times. The video for *Summer Song Summer* has seen many spins across the nation and recently landed as track # 2 on the **Netwerk Records/EMI** compilation *The Grass is Always Bluer*. This compilation includes a who's who of folk/roots/alt-country including **Lucinda Williams**, **Steve Earle**, **Emmylou Harris** and more. **Radiogram** has performed live on **CBC's** nationally televised arts program **ZeD**, receiving a five star rating from ZeD viewers coast to coast. A version of *Whisky In My Bed* is included on *Live Off The Floor*, the **Universal Canada** distributed compilation highlighting the best of **ZeD**.

All The Way Home was on **The Canadian College Top 40** for three months peaking at #5. Radiogram has recorded an exclusive six-song session for **CBC** national radio and a live nationally broadcast rooftop concert from downtown Vancouver. The band enjoyed nationally broadcast interviews/features on **Sounds Like Canada**, **DNTO**, and **Richardson's Roundup**. *All The Way Home* has received airplay in the U.K. on a number of national BBC shows as well as being featured on the popular London based show **Captain America**. The album has graced the airwaves in France, Denmark, Norway, Ireland, Italy and has charted in The Netherlands, Spain and Belgium.

Ken Beattie has just finished a seven song demo of new tracks with **Radiogram** guitar player and multi-instrumentalist **Jonathan Anderson** at the production helm and has another 20 songs waiting in the wings. The last few months Ken has played solo shows at **SXSW** in Austin Texas, **JunoFest** in Winnipeg and a Western Canadian tour opening up for **Feist**, **Boy** and **Julie Doiron**. Beattie and the band will be performing at the WCMA festival in Vancouver in October and plan to hit the studio to record their third full-length album before the snow flies.
